PROFESSIONAL SUMMARY

Python Developer and Data Analytics specialist currently completing a Full Stack Python Developer Internship at Coding Brains (Feb 2026 – Jul 2026). B.Tech student in Artificial Intelligence & Machine Learning with hands-on experience in Python, SQL, Django, REST APIs, Machine Learning, and backend development. Proven ability to build AI-powered applications, automate workflows, and deliver data-driven insights. Strong collaborator with a problem-solving mindset and quick adaptability in agile environments.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, JavaScript

Data Analytics & Libraries: Pandas, NumPy, Data Analysis, Data Visualization, Power BI (basic), Tableau (basic)

Frameworks & Tools: Django, Flask, Streamlit, LangChain, Git, GitHub, REST APIs, VS Code, Docker (basic), Agile/Scrum

Cloud & DevOps: AWS (basic), Google Cloud (basic)

Database Technologies: PostgreSQL, MySQL, PL/SQL, T-SQL

Concepts: Machine Learning, AI, Automation, OOP, Data Structures, Problem Solving, API Integration

WORK EXPERIENCE

Full Stack Python Developer Intern | Coding Brains | Feb 2026 – Jul 2026 (Expected)

- Built 3+ full stack web applications using Python, Django, and REST APIs, reducing manual workflow time by 40%.
- Integrated 5+ REST APIs for data exchange between frontend and backend, improving data retrieval efficiency by 30%.
- Collaborated in an Agile/Scrum team environment, contributing to sprint planning, code reviews, and daily standups.
- Designed and optimized PostgreSQL database schemas, improving query performance by 25%.

PROJECTS

Crop Assistant AI | Jan 2025 – Apr 2025

- Developed an AI-powered agriculture support system using Python, Machine Learning, Image Processing, and Weather APIs, achieving 92% crop recommendation accuracy.
- Analyzed 10,000+ agricultural data records to provide crop recommendations, disease detection, irrigation guidance, and pest management.
- Improved data accuracy by 35% through advanced data transformation and validation techniques.

Intelligent Health Assistant | May 2025 – Aug 2025

- Built an AI healthcare chatbot using Python and Streamlit integrated with LLaMA-3.3-70B and Groq API, handling 500+ user queries.
- Automated user interaction workflows reducing response time by 60%, deployed on Render Cloud.
- Integrated LangChain for scalable AI pipeline management and data-driven insights.

Weather Forecasting Application | Sep 2025 – Nov 2025

- Developed a real-time weather monitoring app integrating 3 weather APIs for temperature, humidity, wind speed, and precipitation tracking.
- Processed and visualized datasets of 50,000+ records, generating structured reports with 95% data accuracy.
- Enhanced user experience with Power BI-style dashboards and efficient data handling, increasing user engagement by 45%.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning | Sai Spurthi Institute of Technology, JNTUH |
Expected Jun 2026

CERTIFICATIONS

- Python & Django Framework
- Java Developer
- Data Analytics
- Effective Leadership

CORE STRENGTHS

Data Analysis & Reporting | Problem Solving | Stakeholder Communication | Team Collaboration | Quick Learning & Adaptability | Strategic Thinking | Attention to Detail | Agile Methodology
